Occupation	Singer

Bio

Saji is a 18-year-old college student from Chennai who is passionate about music and enjoys attending live concerts with his friends. He frequently discovers new artists and upcoming events through social media and music streaming platforms. He prefers convenient digital experiences for finding concerts, comparing ticket options, and booking tickets. He looks for affordable events that match his music interests and wants a simple way to stay updated about upcoming concerts.

Goals

1. Discover upcoming concerts and live events.
2. Find concerts based on music preferences.
3. Discover new artists and performers.
4. Compare ticket prices and seating options.
5. Book tickets quickly and securely.
6. Get reminders and updates about upcoming concerts.

Pain Points

>Hard to discover concerts that match his music interests.
>Ticket information is scattered across different platforms.
>Popular concerts sell out quickly, making booking difficult.

Prefrences

1. Personalized music recommendations
2. Affordable ticket prices
3. Easy and fast booking
4. Nearby concert locations
5. Mobile / digital tickets
